**DETAILED ACTION**

***Response to Arguments***

1. Applicant's arguments filed January 12, 2006 have been fully considered but they are not persuasive.
2. Applicants contend that claim 16 is not obvious over Daniels et al., U.S. Patent 6,583,047 B2 in view of Lee et al., U.S. Patent 6,051,321 herein known as Daniels in view of Lee because claim 16 recites annealing an etched feature in a reducing atmosphere including hydrogen.
3. In response to Applicants contention that the combined teachings of Daniels in view of Lee fails to teach annealing an etch feature in an atmosphere including hydrogen, Applicants are directed to column 13, lines 10-39 where Daniels specifically discloses that the dielectric material may optionally be exposed to some type of energy to increase the molecular weight. For example electron beam radiation in a gas ambient which includes hydrogen (column 13, line 38). Because of the reasons given above, Applicants argument is moot.

***Allowable Subject Matter***

4. Claims 1-15, 25-28 and 30-38 allowed.
5. The following is an examiner's statement of reasons for allowance: reasons for allowance are recited in Applicants remarks filed January 12, 2006.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

*Conclusion*

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

8. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
